WHAT DOES IN HOC SIGNO VINCES MEAN?

JIM LAWS may know, but I couldn't tell you whether it refers to anything animate or inanimate. I never studied LATIN. Some German, a little English and still less Parle Vous, is about all I know when it comes to language.

WHAT DO I KNOW?

After twenty-five years of strenuous endeavor in the mysteries of the clothing business, I can honestly say I know something about CLOTHES.

FREE TO MY CUSTOMERS

all the best thought and labor that I can give to my clothing business, is of some benefit to every customer who enters my store. When a good thing comes into the market I find it out while some are asleep and when poor clothes are thrown on the market I know enough to steer clear.

MUTUAL INTERESTS

Lots of customers means lots of business. Lots of customers can only be kept by honorable treatment. I know that; so you are safe when you trade with

LAST YEAR'S PLATFORM WILL BE REAFFIRMED

The Withdrawal of LaFayette Young as Candidate Makes This Step Possible.

DES MOINES, Ia., July 29.—The withdrawal of LaFayette Young tonight, as a candidate for member of the committee on resolutions, is generally regarded as ending the opposition to reaffirmation of last year's platform by the Republican state convention tomorrow.

The objection which had been made to the reaffirmation of last year's platform was directed almost entirely to a clause in the trust plank declaring that "Any modification of tariff schedules that has been required to prevent their affording shelter to monopolies."

It was held by some that the clause was a virtual admission of Democratic claims that the tariff fosters trusts.

Senators Allison and Dolliver and the entire delegation in congress are here to attend the convention.

HAS SECURED GOOD EXHIBITS.

South America Will Be Well Represented.

ST. LOUIS, July 29.—Dr. J. A. Holmes, chief of the department of mines and metallurgy at the Louisiana Purchase Exposition, has returned after an absence of several weeks. He visited New York, Washington, Baltimore, Philadelphia, Pittsburg and Bethlehem, Pa.

He reports that his trip was successful in every particular. He secured promises of exhibits of steel, iron and other metallurgical products and the process of their manufacture; coal, building stone and phosphate; drilling outfits and other mining machinery.

A cablegram has been received from Jose de Oliveira, world's fair commissioner to several South American countries, announcing that the Argentine president had appointed a world's fair commissioner and would make an extensive exhibit.

Another cablegram from John Barrett, commissioner to the Orient, is as follows: "Had audience with emperor and empress dowager. Empress confirms China's acceptance. He announces that he will appoint an imperial commissioner and issue an edict for the preparation of the exhibit."

WILL INVESTIGATE FLOW OF JAPAN CURRENT.

BERKELEY, Cal., July 29.—Professor William E. Ritter, head of the department of zoology at the University of California, is the prime mover in an undertaking which promises to be of great scientific and economic value to the Pacific coast, namely, the systematic observation of the flow of the Japan current and the study of the biological conditions of that great stream. The San Pedro and Santa Barbara channels will also be surveyed. The enterprise has the backing of President Harriman of the Southern Pacific, the United States fish commission and a number of wealthy business men of Los Angeles. The plans as they are now matured

contemplate the establishment of a complete marine laboratory and museum at San Pedro, to be a department of the University of California and open to all advanced students of biology. With this as a permanent basis of operations, expeditions both along the coast and farther into the mid-Pacific will be made on vessels especially equipped for marine work of a scientific nature. The United States fish commission has given strong assurances that the Albatross will be put at the service of the scientists for the deep sea work and for the investigations along shore a smaller vessel is to be provided.

"I have carefully considered the question as to whether I ought to be a candidate and have determined to leave that question to the Democrats of Colorado in the state convention. If the convention makes me its candidate for the senate I will accept the nomination, but if the state convention shall not see fit to make such nomination, I will not be a candidate."

At the Wedding of Gen. Delarey's Daughter—Gen. DeWet Carried on Shoulders of His Men.

Approaches to the church were packed and the congregation cheered Generals Botha, DeWet and Delarey. DeWet was carried from the church upon the shoulders of his men, who were enthusiastic. When the bride party appeared, the congregation arose and cheered until the minister threatened to stop the ceremony or clear the church.

King Edward's Condition Favorable and Crowning Will Take Place.

ENGLAND IS MORE HOPEFUL

Is Now Able to Walk and Physicians Are Positive of His Recovery—Prepare for Ceremony.

LONDON, July 29.—Latest information indicates that King Edward's doctors were not mistaken in fixing August as the date upon which his majesty could be crowned.

Sinister rumors which have pervaded all classes for the last few days now appear to have lost semblance of probability. Apprehension that King Edward would be unable to stand the strain of coronation ceremony has been greatly lessened by the announcement that his majesty is now permitted to use his feet and with aid of a stick has done a little walking. Nearly all restrictions upon the King's diet have been withdrawn.

OUTWARD SIGNS GOOD.

NEW YORK, July 29.—Coronation seats cannot be sold even at reduced prices.

It is believed lightning ignited a vein of natural gas and caused an underground explosion.

Spokesmen of the great combine declare that it means a fight to the death and that independent exporters cannot hope to win.

As each man was a thorough swimmer and a good swimmer, the cause of their death is a mystery. The four Americans approached the shore of Mindoro in a boat and as soon as they landed the natives attacked them, putting all to death and mutilating them. The bodies were put adrift in a boat. The finding of the boat by Americans led to the discovery of the crime and confessions from some of the natives gave such facts as have been obtained.
